## Details

- Be sure to have plastic or sheets down on the floor unless you are doing this outside, as they may get water on the floor. The hostess can provide these as well as towels.
- You can use buckets or flat tubs for this class. Either you provide these or make sure the hostess knows to have the guests bring her own.
- Begin filling buckets as soon as possible, as this takes a while. You may ask the hostess to assist you.
- I get cheap files, orange sticks, toe separators and pink razors at Wal-Mart or CVS
- Lotion choice is up to you—I usually select 2 or three for them to choose from:

Terme D'Isola, Energizing Foot & Leg Treatment, and maybe a couple of the Spa Line scented lotions

- Give as many polish selections as you desire. Just make sure to always use the base coat and the top coat with the color.
- Guests may keep the file, orange stick & razor. The toe separators may be washed in the washing machine to be cleaned for the next class.
- For an added touch, put a few drops of any of the Spa Line Body Soaks into the warm water at the beginning.
